

Through our group extended health plan coverage, Classes 1, 2, and 12 short-term disability and long-term disability benefits currently are \$600 weekly and \$2,500 monthly, respectively, upon qualification.

For Class 1 and 12, short-term disability insurance terminates at age 70.

For Class 2, short-term disability insurance terminates at age 65.

Long-term disability insurance terminates at age 65.

If you are interested in purchasing additional disability insurance, you must do so on an individual basis, as there is no add-on option for group plans.

There are many options from banking institutions and insurance brokers, but if you wish to purchase an individual disability insurance policy from Canada Life, there is an option online to connect with an advisor. Please note that individual products purchased from Canada Life or any other parties are not endorsed by and are completely unrelated to the Refrigeration Workers Health and Welfare Plan.
