

# Attention: UA Local 516 Apprentices

## Do you:

- Want to be a great HVAC/R technician?
- Want to learn new skills?
- Like to challenge yourself?
- Like to travel?

**IF YOU ARE SERIOUS ABOUT YOUR FUTURE IN HVAC/R THIS IS FOR YOU!**

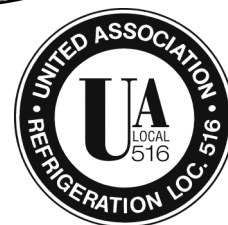

UA Local 516 is looking for enthusiastic, confident and competitive apprentices to participate in apprentice skills competitions.

The UA Apprentice Competitions and the Skills Canada Competitions offer apprentices the opportunity to learn and challenge themselves as they compete in various aspects of the HVAC/R trade.

Competitions are held at various times and locations from April through August each year. You could find yourself travelling to several locations such as Abbotsford, Victoria, Toronto, Winnipeg and maybe even Ann Arbor, Michigan like our UA516 apprentice did last year.

Skills to be tested vary with the level of the competition and typically include service procedures, wiring, troubleshooting electrical and mechanical systems, refrigerant piping and commissioning HVAC/R systems.

Our staff and past competitors will work with you to help better prepare you not only for the competitions, but also for your current and future employment as an HVAC/R technician.

For more information, contact Matt Buss at 604.882.2774 or [mbuss@jarts.ca](mailto:mbuss@jarts.ca)

Don't delay...preparation and registration for the competitions begin soon!
