

## UA Local 516 Online Contract Ratification Voting Procedure Notice

Contract ratification votes are now done online through a third-party voting system. Each eligible UA Local 516-member, travel-in, and permit will have the ability to cast their vote online.

To vote, please visit: <https://ua516.simplyvoting.com>

You will need to provide two pieces of information to vote:

The first is your Elector ID. This will be your UA card number. Do not include any spaces or hyphens. If you are a new member and have not yet received a UA card number or do not know your UA card number, please reach out to the union hall for your Temporary Elector ID.

The second is a password. Your password will be your last name. If your last name contains any special characters such as an apostrophe, hyphen, or a space then you may have to attempt different combinations or exclude the special character altogether.

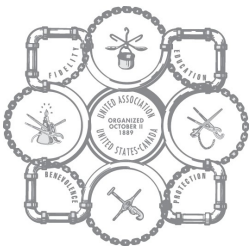

For those of you who have email addresses on file with the union, you may also receive an email link at the start of the vote along with your login credentials. If your email has changed, please contact the Union office.

If you have trouble logging in, or need your credentials including a new password, please reach out to the Union office.

Voting instructions along with a link to the Memorandum of Agreement (MOA) will be available from within the voting system after you login. Please note that the MOA will be in a .PDF format. After login, you will also be automatically directed to the appropriate ratification vote for the contract you work under.

The 2024 CLR & Independent Collective Agreement Renewal Voting period will start during the evening of Friday, April 26, 2024, and run until 4:00pm on Thursday, May 2, 2024.

Results will be announced on the union website.
