

Turn Up the Heat on Your Career — Join Gateway Mechanical

At **Gateway Mechanical**, we don't just fix systems—we keep entire industries running. Since 1968, we've been leading the pack in commercial and industrial HVACR across Western Canada, handling **40,000+ service calls a year** (yeah, we're kind of a big deal).

If you're a skilled Refrigeration/HVAC Mechanic who takes pride in doing it right, solving tough problems, and delivering standout customer service, we want you on our team.

What You'll Be Doing

You'll be out in the field, making things work when they matter most:

- Diagnose, troubleshoot, and repair commercial & industrial HVAC/R systems
- Install, retrofit, and upgrade equipment like a pro
- Tackle service calls by analyzing work orders, solving issues, and testing solutions
- Ensure every install and fix meets top-tier quality (and our customers' high standards)
- Keep clean, accurate digital records of your work
- Travel to project sites (yes, occasionally overnight—adventure included)

What Makes You a Great Fit

You're not just technically solid—you bring attitude, accountability, and drive:

- Strong communicator who knows how to talk shop *and* connect with customers
- Reliable, professional, and always on time
- Problem-solver who doesn't back down from a challenge
- Sharp eye for detail + strong safety mindset
- Able to read blueprints and think on your feet
- Independent worker who takes initiative and gets things done

What You Bring to the Table

- Journeyman Certification (non-negotiable)
- Willingness to take on rotating on-call shifts
- Valid Class 5 driver's license + clean abstract
- Bonus points for:
 - Supermarket/refrigeration experience

14605 – 118 Avenue
Edmonton, AB T5L 2M7
T 780.426.6055
TF 800.414.4929

- Gas ticket
- CO₂ systems experience

⚡ Why Gateway?

Because you don't want just *another job*—you want to work with a company that's established, respected, and always evolving. We invest in doing things right, supporting our people, and staying on the cutting edge of the industry.
