

We are looking for individuals interested in Mechanical System Testing, Adjusting, Balancing, and Commissioning to join our growing team. Duties include testing, verifying, adjusting, and balancing, mechanical HVAC equipment and systems. Applicants with prior HVAC, Sheet Metal, Control System, or Construction experience will be given preference. Wage is negotiable based on experience; no experience is necessary. Training can and will be provided when required.

**Qualifications:**

- Ability to understand and review mechanical drawings and specifications
- Proficient with computer programs and cloud file sharing applications
- Knowledge of basic hand tools
- Ability to work around the Lower Mainland and travel to job sites as required (DL & Access to a vehicle)
- Ability to qualify for security clearance based on client requirements
- Ability to troubleshoot and resolve mechanical problems
- Focused and detail oriented
- Strong written and verbal communication as well as interpersonal skills

**Roles & Responsibilities:**

- Testing systems using specialized and calibrated instruments to measure system's performance
- Physically able to lift 50lbs, walk or stand for long periods
- Must be comfortable and able to work on a ladder and lift, work at heights and on rooftops
- Able to work independently and manage time effectively to meet deadlines
- Maintain a valid drivers license as project locations vary throughout the Lower Mainland, or within the province of BC

We offer competitive salaries, extended health & dental benefits, car, phone & gas allowances as well as a great team environment that you'll be happy to be a part of. If you feel like this job is the right fit for you, please send a PDF version of your resume to [admin@raincitytechnical.ca](mailto:admin@raincitytechnical.ca)

\*\* while we appreciate all applications we receive, only candidates under consideration will be contacted.
