

Refrigeration Mechanic

Location: Surrey, BC

TransCold Services Ltd. has decades of experience specializing Refrigeration, HVAC, and general contracting. Founded in 1941 and now part of the TransCold Distribution group, we pride ourselves on delivering exceptional workmanship, 24/7 emergency service, and innovative solutions for complex projects. TransCold Services builds on its legacy as a trusted contractor with a total focus on service excellence, workmanship, honesty and by providing the best solutions to its customers. Our team comprises government-certified professionals, and we are committed to safety, ongoing training, and excellence in the trades .

We are currently looking for an experienced Refrigeration Mechanic to join our team. The key duties and responsibilities are as follows:

Required Skills and Qualifications

- Diagnose, install, repair and service commercial refrigeration systems.
- Inspect and repair customer's HVAC/R systems; troubleshoots components to determine necessary repairs.
- Effectively communicate refrigeration solutions and options to customers.
- Estimate time and materials for field servicing and identifies other preventative work.
- Use and adjust computerized controls, use computer software to estimate loads.
- Use blueprints and install or repair HVAC/R systems.
- Ensure work conforms to all municipal and utility codes and quality standards of the company
- Perform mechanical overhauls and refrigerant reclaiming with proper refrigerant when necessary and maintain and repair compressor units and equipment.
- Test, make measurements, and adjust all types of heating, ventilation, air-conditioning, and refrigeration systems for most efficient performance.
- Assess client needs during service calls and propose solutions.
- Prepare detailed quotes for repairs and service agreements.
- Identify and pursue new business opportunities in target sectors (e.g. food retail, cold storage, hospitality).

Required Skills and Qualifications

- Current Refrigeration Red Seal qualification, Gas B Ticket required
- 3-5 years similar as Refrigeration Mechanic using general refrigeration competencies including but not limited to ammonia systems repair
- Self motivated to identify and pursue sales leads independently
- Experience preparing quotes/proposals for refrigeration projects or service agreements
- Ability to read schematics, diagrams, and blueprints

- Ability to work independently and as part of a team
- Must have valid class 5 drivers' license
- Must be able to provide own handheld and cordless tools

Why Join Us?

- 1) **Earn more from Day 1-** We offer above union rates.
- 2) **Growth on Your Own Terms-** This is a hybrid role- you balance field work with business development. This is also a pathway to Sales leadership roles.
- 3) **Ongoing Support-** Proactive office support and branded service vehicles.
- 4) **Reputable company-** Work with a reputable long-standing company known for technical excellence and integrity.

If you're passionate about refrigeration and want to work with a company that values integrity and workmanship, we encourage you to send your application to cooljobs@transcold.com. To learn more about us, visit www.transcoldservices.com.
